ERGONOMIC AND VIBRATION FREE STRUCTURE

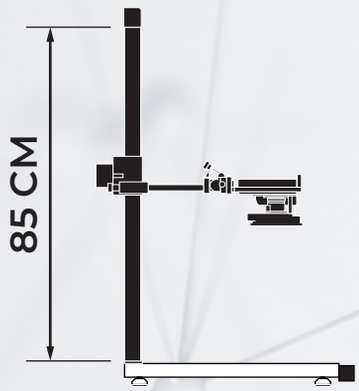

The fixed body reduces vibration during long exposures. The ergonomic design ensures comfort during extended use.

PRECISE HEIGHT ADJUSTMENT AND ANGLED SURFACE SUPPORT

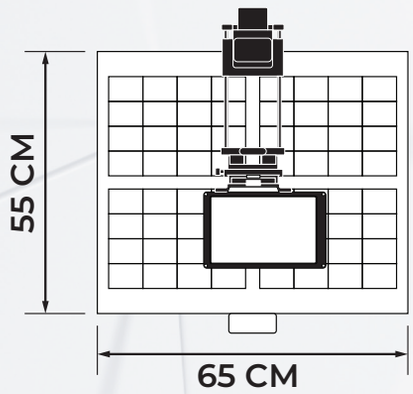

With an adjustable column, both macro and micro height adjustments can be made. Angled surfaces can be examined using the tiltable apparatus.

SCALED AND STABLE WORKING AREA

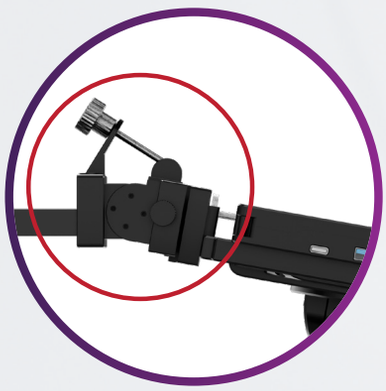

The scaled table instantly shows the size of the examined evidence. The stable surface allows precise positioning of both documents and evidence.
